

## **FROM A SKETCH ON A NAPKIN TO TRANSFORMING THE OUTBOARD MARKET**

*At OXE Marine we are driven by the ambition to transform the outboard motor; impacting the journey towards a more sustainable and ecologically positive marine environment. It all started with an idea, a sketch on a napkin. It continued with a great drive of knowledge, passion and will, to create durable, safe and reliable products.*

*Sweden-based OXE Marine was founded in 2012 with the ambition to create the world's first high-performance diesel outboard developed primarily for commercial use. We are driven by a passion to develop, improve, keep building and finalize our first diesel outboard, the OXE Diesel, in the spring of 2014. Today, we are a growing company with products available on different markets, with the ambition to keep growing to provide commercial marine solutions that are safer for people and our planet*

## **Field Quality Technician for unique marine products**

OXE Marine AB is searching for a Field Quality Technician to our aftermarket department, who is ready to take on a versatile and exciting role travelling to our global customers to support them with your technical expertise.

We are looking for someone who can identify and solve the technical problems that our customers face. You will be part of a motivated team that delivers service and support to our customers and assist with technical expertise.

### **Description of the position**

- Actively help our distributors to build a service network in each region.
- Actively develop the service capacity of our distributors through training and support.
- Assist with expert knowledge to our customers to solve difficult problems.
- Perform service work on site - which involves travel both nationally and internationally.
- Participate in the making of technical service material.
- Assist in warranty management by technical evaluation and analysis.

### **We are looking for a person who has**

- Technical education and good technical knowledge.
- Work experience of a similar role, preferably from the marine industry or the automotive industry.
- Is positive and solution oriented.
- Experienced in customer service / support and building customer relationships.
- Ability to collaborate with other parts of the organization.
- Experience of working in business systems; OXE Marine use Monitor.

OXE Marine AB is a fast-growing company with its base in Helsingborg and Ängelholm. With us you are welcomed by knowledgeable colleagues in a creative environment. You get the chance to develop through exciting projects and work in a small company with a strong brand in a growing industry with innovative and revolutionized products. You will be a valued colleague and be part of a competent and committed team. Agile decision making and "can do" mentality is buried in our culture. Visit us at <https://www.oxemarine.com/>
